2018 ESTATE GEWÜRZTRAMINER

TASTING NOTES

Gewürztraminer (pronounced ge-verts-trah-mee-ner) is an aromatic variety grown throughout the world, most notably in Alsace, France. “Gewürz” translated from German means “spice,” and that is just the trait that makes Gewürztraminer so fabulous. Our 2018 Gewürztraminer is a fragrant wine with aromas of stone fruit, citrus, lychee and a hint of rose petal. Fresh, sweet flavors of tropical fruit and a honeysuckle finish make this a delicious wine to serve as an apéritif, but it is also a terrific food match. The perfect balance of residual sugar and bright acidity gives it wonderful versatility. Try with spicy or highly seasoned foods, soft cow’s milk cheeses, fresh fruit, ribs slathered in tangy barbecue sauce, or with butter-pecan sweet potatoes at the holiday table.

VINEYARD

The grapes for our estate grown Gewürztraminer are sourced from our estate Viento Vineyard. The name Viento is the Spanish word for wind and this brisk vineyard is aptly named after the dependable winds which come howling down the vineyard corridor every afternoon around 2 p.m. The cool and windy conditions allow for slow ripening and the cultivation of top-notch Gewürztraminer. The fruit is characterized by small berries and clusters and a unique tan-pink color. The highly pigmented skins often give a deep gold color to the wine. The spicy Gewürz taste is evident even when eating a grape straight off the vine.

VINTAGE

The 2018 growing season was perhaps the most drama-free vintage in years. Beginning with refreshing and timely rains that led into a cooler than average spring, the bloom period was delayed and extended into June. Right on cue, warm temperatures arrived in August, enabling fruit growth and color development to catch up. Fall conditions were perfect, with mild temperatures and no significant rainfall, allowing grapes to ripen slowly and steadily. The result was a winemaker’s dream: fantastic fruit with excellent quality and flavor potential.

WINEMAKING

The wine was pressed and cold settled then inoculated with Steinberg yeast, a strain of yeast developed in Germany that yields a lengthy fermentation and is known to enhance fruit character. The juice was slowly fermented in stainless steel at a very cold temperature to enhance the aromatics and fruit character of the varietal. The finished wine was kept cold and filtered early before completing fermentation to leave a touch of natural sweetness and enhance the fruitiness and mouthfeel.
