

# BEE YOU

EVERYONE ELSE IS TAKEN

2019

## RIESLING

### THE VINEYARDS

The climate of Monterey County, California is ideal for Riesling vines. Each morning cool air sweeps off the Pacific Ocean and drifts down the Salinas Valley, keeping our vineyards cool until midday when the bright California sun shines through. This combination slows the maturation of our grapes and gives them more hang time on the vine which equals better flavors. Bee You wines are grown on our estate vineyards and pressed and bottled at our estate winery, which means we are responsible for everything. That's how we like it.

### WINEMAKING

To maintain the delicate flavors, the Riesling grapes were harvested in the cool early morning hours and brought to the winery where they were whole-cluster pressed, then slowly fermented entirely in stainless steel. Fermentation was conducted at a very cold temperature to enhance fruit expression and retain the unique varietal character of Riesling. We do it right.

### TASTING NOTES

Refreshing and smooth, this wine has flavors of juicy peach and wild honey with a perfect touch of sweetness.
