

VDR

Very Dark Red

PROPRIETARY RED BLEND

Very Dark Red is a big and bold proprietary red blend headlined by a unique combination of Petite Sirah and Petit Verdot—two grape varietals known for their extraordinarily deep purple hue, concentrated flavor and full-bodied profile. While not normally considered complementary blending partners, these grapes offer ideal sugar-to-acid ratios, voluptuous texture and intensely dark color. The result is a powerful, memorable wine that commands the attention of the palate as much as it does the eye.
