WINEMAKING

Winemaker Casey Di Cesare likes to say that flavors are made in the vineyard. That's why our grapes are left to hang on the vine to reach full maturity and flavor development before harvesting. Upon arrival at our estate winery, the grapes are crushed and fermented to dryness, resulting in zero residual sugar. Using proprietary technology, the alcohol is gently pulled from a portion of the wine. **The result?** A mindfully made wine that is zero sugar, 9% alcohol and 85 calories per serving (about 30% fewer calories than an average serving).

TASTING NOTES

Our Positively Pinot Noir is a riveting red wine full of juicy berry flavors and pure joy. Red and black cherry kick off the palate, followed by luscious pomegranate and a hint of toasty oak. The silky-smooth texture pairs perfectly with rotisserie chicken, tomato basil pasta, grilled burgers and being **outdoors on the patio at sunset.**
