

BLUE CANYON

PINOT NOIR

— RESERVE COLLECTION —

THE BLUE GRAND CANYON

Underneath Monterey Bay lies a geological marvel, the Blue Grand Canyon, linking the sea to grape cultivation in Monterey. Stretching sixty miles in length and reaching depths of two miles, this submarine canyon mirrors the dimensions of its visible counterpart in Arizona. The canyon gives rise to significant climatic influence on all four wine-growing regions that extend to the south down the Salinas Valley through fog, wind and limited rainfall throughout the grape growing season.

ESTATE VINEYARDS

Our premium Pinot Noir grapes were sourced from carefully selected blocks in our first-class estate vineyards located in Arroyo Seco, renowned for its distinctive climate and diverse soil composition. Bathed in the coastal sun by day and cooled by the refreshing ocean breeze at night, these vineyards create the optimal conditions for our grapes to ripen slowly, resulting in an unparalleled depth of concentrated fruit flavors and exceptional balance perfect for our premium reserve collection.

TASTING NOTES

Our Reserve Collection Pinot Noir is meticulously aged in French oak, resulting in a wine that exudes the elegance of our estate-grown Arroyo Seco vineyards. Exhibiting notes of juicy raspberry and dry strawberry, the wine finishes smoothly on the palate with a silky texture and hints of allspice and vanilla.
