CABERNET SAUVIGNON

PASO ROBLES | CALIFORNIA

VINEYARDS

Nestled in the heart of California's Central Coast, between Los Angeles and San Francisco, lies the bountiful Paso Robles Wine Country. Renowned for its richness and allure, this remarkable region boasts a climate ideal for cultivating exceptional grapes and crafting exquisite, award-winning premium wines. A tapestry of warm, sun-drenched days and refreshing cool evenings orchestrates a long growing season, nurturing grapes to perfect ripeness. The result? Lusciously vibrant fruit that brims with flavors, eagerly awaiting to be uncorked and savored in your glass.

WINEMAKING

We meticulously harvest our Cabernet Sauvignon grapes at the pinnacle of ripeness, capturing their essence during early morning hours. As they arrive at our winery, the grapes are delicately destemmed and commence their transformation in open top containers. This thoughtful approach permits gentle "punch downs," ensuring the firm cap of grape skins imparts its subtle nuances. Once the desired dryness is achieved, the wine is gently pressed into stainless-steel tanks, offering a moment of repose for settling. From there, the journey continues, as the wine finds solace in oak aging, gradually unfolding its complexities with each passing day.

TASTING

Our 2021 vintage is bold and well-balanced, with aromas of blackberries, blueberries and ripe plums with notes of black pepper and toasty oak. The wine is full-bodied with soft, structured tannins, offering bright black fruit flavors and a lingering sweet oak finish. Enjoy this Cabernet Sauvignon with your grilling favorites from smoky ribs to savory wild game, or cellar it for a special occasion.

APPELLATION: *Paso Robles*
